

## REMARKS

Claims 59, 62 and 69-71 were indicated to be allowable in the parent application. This request for continued examination is being submitted out of an overabundance of caution to have the allowed claims considered in light of additional prior art. Such art is cited in an accompanying Supplemental Information Disclosure Statement.

Further note, the January 2, 2004 Notice of Allowance incorrectly recites the title. The correct title is "Methods of Forming Contacts, Methods of Contacting Lines, Methods of Operating Integrated Circuitry, and Integrated Circuits." Please correct in the next Notice of Allowance.

The Examiner is requested to phone the undersigned if the Examiner believes such would facilitate prosecution of the present application. The undersigned is available for telephone consultation at any time during normal business hours (Pacific Time Zone).

Respectfully submitted,

Dated: 2-27-04
